

Doctor My Eyes

[A] [C#m7] [F#m] [D]

Doctor, my [A] eyes have seen the years

And the [C#m7] slow parade of fears without [F#m] crying

Now I [D] want to under[A]stand

I have done all that I could, to see the [C#m7] evil and the good

Without [F#m] hiding. You must [D] help me if you [A] can

Doctor, my [F#m] eyes, [A] tell me [E7] what is [A] wrong

Was I un [F#m] wise to leave them [E7] open for so [D] long [A]

'Cause I have wandered through this world

And as each [C#m7] moment has unfurled,

I've been [F#m] waiting to [D] awaken from these [A] dreams

People go just where there will, I never [C#m7] noticed them until

I got this [F#m] feeling, that it's [D] later than it [A] seems

Doctor, my [F#m] eyes, [A] tell me [E7] what you [A] see

I hear their [F#m] cries, just say if [E7] it's too late for [D] me [A]

Doctor, my [F#m] eyes [A] cannot [E7] see the [A] sky

Is this the [F#m] price? For having [E7] learned how not to [D] cry [A]
