

Little Drop of Poison – Key Dm

I like my town with a little drop of poison
A Dm
Nobody knows they're lining up to go insane
Dm Gm
I'm all alone, I smoke my friends down to the filter
A7
But I feel much cleaner after it rains

Dm
She left in the fall, that's her picture on the wall
Gm
She always had that little drop of poison

Did the devil make the world while God was sleeping
Someone said you'll never get a wish from a bone
Another wrong goodbye and a hundred sailors
That deep blue sky is my home

She left in the fall, that's her picture on the wall
She always had that little drop of poison

Dm Gm
A rat always knows when he's in with weasels
A Dm
Here you lose a little every day

I remember when a million was a million
They all have ways to make you pay

Dm
She left in the fall, that's her picture on the wall
Gm
She always had that little drop of poison D#m
